MOUNTAIN COMPREHENSIVE HEALTH CORPORATION SCHOOL BASED CLINICS

Consent for School Services

The Providers and Mountain Comprehensive Health Corporation will offer medical services that include, but are not limited to acute care, preventive services, school physicals, medications for minor illnesses and emergency treatment as needed. Basic laboratory tests will be provided at the School Based Clinic when requested by a parent or if a child comes to the clinic with symptoms indicating the need for a lab test, or if it's a required part of the physical exam. Please review this form carefully and complete all information that is requested. Return the form to your child's teacher. The Providers cannot/will not provide service to your child without this signed consent (except for emergency first aid). This consent does not cover Immunizations. You must contact the School Based Clinic, or the Providers will contact you for a separate consent for that service. The consent can be withdrawn at any time by the parent or guardian by informing the provider in writing. **For more information please go to www.mchcky.com.**

Reason

_____
Where Physician Date

Does your child use any of the following substances?

Tobacco? ___Yes ___No Alcohol? ___Yes ___No Drugs? ___Yes ___No

Telemedicine

Mountain Comprehensive Health Corporation is now offering Telemedicine Services!

What is Telemedicine?

Telemedicine (also referred to as "telehealth" or "e-health") allows health care professionals to evaluate, diagnose and treat patients in clinic locations using telecommunications technology. Telemedicine allows patients to access medical expertise quickly, efficiently and without travel. Telemedicine provides more efficient use of limited expert resources who can "see" patients in multiple locations wherever they are needed without leaving their facility. Telemedicine will allow for your child to be seen, even when a provider is not physically on-site with the assistance of a trained and qualified Medical Assistant.

What does it mean for my child?

By utilizing Telemedicine in School-Based Clinics, MCHC will be able to provide every child with healthcare from a Medical Professional. Your child will be able to be examined by a Provider without having to leave school. This allows Providers to be able to prescribe treatments and issue medical excuses. Providers will contact parents concerning the health of their child and/or schedule a clinical visit for further examination; allowing your child to spend more time in the classroom for education so you can have peace of mind.

How does it work?

Telemedicine uses the latest HIPAA compliant medical technology to utilize state-of-the-art visual and audio equipment to ensure your child has the best and most accurate examination possible. MCHC uses a closed circuit connection for the best audio and video quality; also, to ensure that your child's information is safe, secure, and seen by only appointed Medical professionals. A Medical Assistant will be present to utilize these tools so that the Provider doing the examination from a MCHC clinic can focus solely on the needs of your child while protecting your child's rights and privacy. Parents will be contacted in the event their child sees a Provider.
